Choose to battle as one of seven seasoned martial arts combatants in a quest for the Mortal Kombat title.

The Storyline

Many years ago the Shaolin Tournament was a competition of honor for martial arts warriors from around the world. They gathered annually to compete for the title of Grand Champion until 500 years ago Shang Tsung, a disgruntled former warrior, gained control of the tournament with the help of his half-human, half-dragon protogee, Goro. Now Shang Tsung manipulates the Tournament to satisfy his own evil needs. Those who compete do not survive to tell the tale of how Shang Tsung steals their very souls to gain immortality for himself.

Competitors in the Mortal Kombat Tournament can choose to fight as one of seven skilled martial arts warriors – Johnny Cage, Liu Kang, Kano, Rayden, Sub-Zero, Scorpion, and Sonya Blade.

An Exhibition Mode enables would-be warriors to compete against one another and practice their skills in competition in preparation for their quest for the Mortal Kombat title.

In the Tournament Mode, warriors must battle through a series of different matches. First, competitors fight each of the other six warriors in a best two-out-of-three match competition. Survivors move on to battle a mirror image of themselves in a best two-out-of-three Mirror Match. Victorious warriors move on to three Endurance Matches. In each Endurance Match the fighter must defeat two different warriors to advance. If a warrior manages to win all of these challenges, he/she faces Shang Tsung's champion, four-armed Goro, in a battle to the death. Challengers that survive their match against Goro, enter the arena for the ultimate competition – a deadly battle against Shang Tsung for the title of Supreme Mortal Kombat Warrior.

LIU KANG

Fireball

Liu, buddy, does the word firebug have any meaning for ya? Help contribute to the delinquency of Liu Kang by tapping Toward, Toward, and Button A.

Head Blow

Kang seems like a nice enough guy, but appearances can be deceiving. To smack Liu's foes in the gourd, tap Button A when in the close vicinity of an attacker.

Throw

Applied physics in a video game? To experiment with this concept, push Button C when near an enemy.

Flying Kick

Soar through the air with the greatest of ease with Kang. To take flight, hit Toward, Toward, and Button C.

Finishing Move

Kang's Finishing Move is two for the price of one. He takes off with a Helicopter Spin Kick, and then finishes with an Uppercut. What a deal! Begin by holding Start, and then press Toward, Down, Away, Up, and Toward (in a full circle towards the foe).

Escape Artist

1. When Kang is cornered, knee his opponent.

2. Then, take Kang in with an Air Kick.

3. Finally, take advantage of the situation with a Flying Kick (so much for being cornered).

Smoke 'Em

1. Kang can say it twice as nice with two Punches.

2. Just to make sure they heard, offer to light their cigarette with Kang's Fireball...

3. ...and put it out right away with an Air Kick, 'cause smoking is bad for their health.

Killer Kombos Genesis

Hey You, come Here

1. If Kang's enemy is on the other side of the screen...

2. ...send off a Fireball to get their attention.

3. Then, let 'em know who's boss with a Flying Kick.

Short and Simple

1. Begin this short, easy combo by taking Kang in with a Jumping Punch.

2. Before Kang's attacker even hits the ground, finish things off with a Flying Kick.

Killer Kombos Genesis

LIU KANG

So Long

1. Hope Kang's attacker doesn't like long goodbyes. First it's goodbye feet when Kang comes in with a Sweep.

2. Then, it's goodbye chin when he tags 'em with an Uppercut.

3. Finally, it's goodbye skin when the Fireball comes sailing across.

Repeat

1. Kang can really kick into gear when he jumps in with an Air Kick.

2. When the Kick's complete, jump back.

3. Repeat the Air Kick. Nail Kang's foe a couple of times by repeating the same move over and over before they have a chance to recover.

Special Delivery

1. Surprise! Kang's got a Jumping Punch for his opponent.

2. He's always happy to repeat the move again just in case they missed it.

3. Just to make sure they heard Kang the first two times, finish off with a Flying Kick.

Against Cage

As Johnny tries to jump in on Kang, give him a quick Flying Kick.

Against Kano

Block Kano's Cannonball and then toss a Fireball in his direction.

Against Rayden

Block Rayden's Torpedo and try to scorch him with Kang's Fireballs.

Against Sub-Zero

To melt Sub-Zero's Freeze, block it and quickly Fireball when ready.

Against Scorpion

To avoid getting speared by Scorpion's Harpoon, take to the air. Try to Air Kick constantly, and end up in the air as the Harpoon is tossed.

Play Tips Genesis

Against Sonya

Sweep Sonya's Scissors, and stay out of range of her close-in moves.

Against Kang

When Kang's evil twin tries to tag him with a Fireball, jump over the fire and then try to plant an Air Kick on his head.

Harpoon

Scorpion's super secret weapon really shafts his attackers. To go foe-fishing, tap Away, Away, and Button A.

Throw

Throw Scorpion's attackers off track with this easy move. Sneak in close and then push Button C.

Teleport

Now you see Scorpion, now you don't. To disappear and reappear on the other side of Scorpion's enemy, hit Down, Away, and Button A.

Head Blow

When his foes start to get smug, Scorpion likes to wipe that look off their face with a solid tap on the noggin. Press Button A when close to the enemy.

Finishing Move

Scorpion's sting reduces his enemies to charcoal with one exhalation. To end it for an opponent, hold Start and tap Up two times.

Killer Kombos Genesis

KO

1. Plaster Scorpion's attacker with two Punches.

2. Then, Sweep them until they're well grounded.

3. To end this kombo, have Scorp quickly step closer and deliver a final Uppercut.

SCORPION

Stick to the Point!

1. Sneak Scorpion in to double Punch his attacker.

2. For even more fun, continue the kombo with two consecutive Jumping Kicks.

3. Now that Scorpion's set the bait, nail 'em with the Harpoon.

4. Finally, reel them in with an Uppercut.

Sucker!

1. Have Scorpion jump backwards to sucker his opponent into jumping at him. When they do, meet 'em head on with a Low Block.

2. To throw 'em off track, Teleport Scorpion away.

3. But return to Harpoon them for good measure.

4. Finish the kombo with a blazing Uppercut.

Sneak Attack

1. Have Scorpion begin this maneuver with two quick Air Kicks to snap his foe to attention.

2. Then, Teleport away.

3. When Scorpion reappears, quickly deliver a deadly blow with the Harpoon.

4. Complete the destruction with a Throw.

Reel 'Em In

1. Have Scorpion stab his opponent with the Harpoon and then reel him in.

2. When Scorpion's in close, toss his opponent back with a Throw.

3. Finish this one off with an Air Kick.

Defensive Maneuvers

1. When an opponent tries to jump in over Scorpion, duck.

2. Then, turn and stab the attacker with a Harpoon as they land.

3. Press Scorpion's advantage with a quick Sweep.

4. Do some final damage with an Uppercut.

Play Tips Genesis

SCORPION

Against Sub-Zero

Sub's a little dense. Scorpion can Air Kick him over and over, and, for a change of pace, mix it up with an occasional Throw.

Against Kano

Kano's no match for Scorpion's Harpoon. Take a stab at him and then Upper Cut at will. The Harpoon can nail Kano even when he's doing his Cannonball.

Against Kang

Scorpion can confuse the heck out of Kang with a simple two-move combo - Teleport and Sweep.

Against Scorpion

When Scorpion finds himself face to face with his own deadly Harpoon attack, he's got to Block and then Teleport in order to have time to catch his breath.

Against Cage

When Johnny tries to sneak in with his Shadow Kick, Scorpion's best bet is to try to give 'em a little rope, Harpoon-style.

Against Sonya

Stay away from Sonya and try to tag her with an Air Kick, a Harpoon, or a Teleport followed by another move. When Sonya tries to get Scorpion with a Square Wave, aim the Harpoon in the opposite direction. If the timing's right, the Harpoon will stab her as she lands.

Against Rayden

Block Rayden's standard Torpedo and then slip him Scorpion's Harpoon. Follow up with any of Scorpion's favorite moves.

Freeze

One blast of Sub-Zero's frosty breath and his foes are stone-cold-frozen. The chill sets in when you press Away, Down, Toward, and Button A.

Slide

Sub-Zero could teach major leaguers a thing or two about sliding. To do the Sub-Zero Slide, tap Away and Buttons B and C simultaneously. Yer out!

Head Blow

Every now and then Sub-Zero gets tired of pulling off spectacular moves and goes for something a little more basic - like poppin' his opponent on the cranium. Move in close and tap Button A.

Throw

Sometimes the simplest pleasures can be the most satisfying. Test out this theory for Sub-Zero by hitting Button C when you're in close to an attacker.

Finishing Move

Sub-Zero swings, he hits, he blasts it outta the ballpark. To help him with his game-ending Uppercut, get in close to an attacker and hit Toward, Down, Toward, and Button A.

Wind Chill Factor

1. To begin, knock Sub-Zero's opponent off their feet with a Sweep.

2. As Sub's attacker tries to stand, tag 'em with an Uppercut.

3. Stop 'em dead in their tracks with the Freeze.

4. Then, just in case they missed it the first time, have SZ give them a rerun of the Uppercut.

Step, Step, Slide

1. Get Sub-Zero off to a great start with an Air Kick.

2. Then, slip him into a quick Slide.

3. Move SZ in close for a Jumping Kick.

4. Then, conclude this Sub-Zero combo with another Slide.

Killer Kombos Genesis

Put 'Em on Ice

1. Have Sub-Zero cool things down with a Freeze.

2. Then, Throw the frozen carcass of Sub's attacker across the screen.

3. Conclude this frosty combo with a diagonal Air Kick.

Killer Kombos Genesis

No Doze

1. Keep Sub-Zero's foes on their toes with a quick Air Kick. Then, back Sub up and come in one more time with a second Air Kick.

3. Next, have Sub give 'em the cold shoulder with the Freeze.

4. Finally, show 'em the door with the Uppercut.

SUB-ZERO

Deep Freeze

1. Set the air conditioning to chill and have SZ do the Freeze.

2. While Sub Zero's attacker is trying to warm up, nail 'em with an Uppercut.

3. Finally, Slide Sub Zero into something more comfortable, like his opponent.

Next, Please

1. Can you say Freeze, as in Sub-Zero?

2. I knew you could. Now, have Sub leap in with two Air Kicks.

3. OK neighbor, finish off with the Sub-Zero Slide.

Do the Sub-Zero

1. When Sub-Zero's foe jumps straight up, give 'em two High Punches from below.

2. ...then Slide into them before they land.

Against Rayden

Block Rayden's Torpedo and then give him the deep Freeze. Once frozen, he's a sitting duck for just about any move.

Against Sub-Zero

Slide into Sub-Zero (or anyone else's) Sweep, and they're flat on their...er...get the picture?

Against Kano

When Kano twirls in with his Cannonball, give him the Freeze.

Against Kang

Sub's best moves against Kang are the Throw, the Freeze, and the Uppercut. Mix it up with these moves and Kang's history.

Against Cage

When SZ goes head-to-head with Cage, he's got to Block the Shadow Kick and Freeze, then tag him with an Uppercut.

Play Tips Genesis

Against Sonya

Sonya's tough, but Sub-Zero can Freeze out any of her moves. Expect to take some heat from her Rings.

Against Scorpion

Three moves help Sub-Zero take the sting out of Scorpion's attack. Just remember to Slide plenty, leap in with Air Kicks, and Throw.

Ring Toss

Sonya's favorite song is probably Ring of Fire by Johnny Cash. To sing along, hold Button A and tap Away.

Square Wave Flight

Nope, it's not a new surfing sensation. It's Sonya, pulling off her Square Wave Flight. To ride the wave, tap Toward, Away, and Button A.

Scissor Grab

Physical fitness isn't just for Mortal Kombatants. This public service message has been brought to you by Sonya Blade. Push Down and Buttons A and B simultaneously.

Head Blow

When the going gets tough, Sonya gets tougher. When an attacker gets too close, tap Button A to show 'em Sonya means business.

Throw

Sonya likes to do a little weight lifting to keep in shape. Move in close, tap Button C, and she'll prove just how strong she really is.

Finishing Move

When Sonya shows her affection for her enemies by blowing them a kiss, get out the marshmallows 'cause it's roasting time. To sing around the campfire with Sonya, tap Toward, Toward, Away, Away, and Start.

Killer Kombos Genesis

SONYA BLADE

Deja Vu

1. Take Sonya in and tag her attacker with three consecutive Jumping Punches.

2. Just as Sonya's opponent starts to recover, nail 'em with a Jumping Kick.

Don't Back Down

1. When Sonya gets cornered, have her jump over her opponent with a Jumping Kick.

2. Then, shear her foe with a Scissor Grab.

3. Finally, toss 'em a few Rings.

Trick or Treat

1. Sucker Sonya's opponent into leaping Toward her by having her jump Away.

2. When they come after her, let loose with a Square Wave Flight.

3. Finally, makê Sonya's attacker feel really foolish by throwing a Ring Toss.

Ring Around the Collar

1. Sonya doesn't have any problem Sweeping 'em off their feet.

2. Then, give her attacker an affectionate Uppercut.

3. Just to let 'em know Sonya really cares, give them a good Ring Toss as a going away gift.

Just What the Doctor Ordered

1. Prescribe two Air Kicks for Sonya's attackers.

2. Then, give them two Jumping Punches and tell them to call her in the morning.

Air Sonya

1. Help Sonya send her foe into orbit with a Ring Toss.

2. Before they hit the decks, snag 'em with a Scissor Grab.

Play Tips Genesis

SONYA BLADE

Against Kano

Move Sonya in close to Kano and snip him with the Scissor Grab. If the Scissors miss the first time, repeat immediately - Sonya'll be in close enough to really go for it.

Against Cage

Sonya can dazzle Johnny with Rings, Rings, and more Rings. She can toss them off faster than Cage can do his Green Flame.

Against Kang

As Kang goes soaring by with a Flying Kick, snap him out of the sky with Sonya's Scissor Grab.

Against Sonya

Against Sonya's alter ego, beware of the Square Wave. If she attempts it, cut her down with the Scissor Grab.

Against Rayden

If Rayden starts his Torpedo from the other side of the screen...counter with the Ring Toss.

Against Sub-Zero

To avoid the Freeze, Sonya should come in with plenty of Air Kicks. If Sub moves in close, she can shear him with the Scissor Grab.

Against Scorpion

Block Scorpion's Harpoon and sucker him in for the kill. Jump back and as Scorpion jumps forward, annihilate him with a Square Wave.

SUPER NES

Bonus Maps SNES

The Palace Gates

The Palace action starts in an inconspicuous setting. Outside, prove yourself as a Kombatant, or you might as well pack your things and hitch-hike back to whatever hole you crawled out of.

The Courtyard

So, you're inside! Don't get cocky. The tournament is just beginning. The eyes of hundreds of monks are on you, and they don't expect you to win. Don't get backed up against the doors to the Palace... unless you want to find yourself on the outside again.

Hall of Champions

You've longed for recognition of your fighting skills. Here in the Hall of Champions, you can fight amongst the statues of those worthy to be called into Mortal Kombat. If you're lucky, you won't end up as lifeless as the statues.

Wood

To prove yourself, you must pass the tests of Wood, Steel, Stone, Ruby and Diamond. Wood proves to be the easiest for those whose hands are calloused from battle.

Stone

Stone is only solid to those whose concentration is unfocused. For those that have sold their soul in battle to Shang Tsung, stone is as solid as water.

Steel

It's been said that the cold of steel can be melted with the fire of fury. Those who've battled to this point should know that fire well.

Goro's Lair

The skeletons and nasty glowing eyes in the background say it all. Goro may not be home when you fight here, but he'll return. So, get your butt in gear, start fighting, and pray that your match ends early!

Ruby

A precious stone with a resistance to most elements, the Ruby bonus stage is only for those who can withstand the pain of fighting with hands full of broken bones.

Diamond

Second in coldness only to Shang Tsung's heart, the Diamond Stage is very hard. Whatever you break from this magnificent stone is yours to keep forever...if you live that long.

The Pit

Don't look down, lurking below in the Pit are hundreds of razor-sharp spikes.

Inside Shang Tsung's Palace

Under the watchful glare of Shang Tsung, you battle to the death for his amusement. Bite your tongue, warrior, you'll learn soon enough of the Master's power.

Johnny doubles up the pain with his Cage-cloning kick. To execute the kick, back Johnny Away from his opponent, then move Toward and press Button A.

Throw

Johnny takes opponents up and over with his Throw. Simply move in close and press Button B.

Finishing Move

Johnny performs a little internal surgery the hard way. To put a foot through the midsection of his attacker, push Toward the opponent three times and then press Button Y.

JOHNNY CAGE

Too Hop to Handle

1. Hop on it by going diagonally Toward Cage's opponent and hitting Button B to punch (called Hop Punches).

2. As soon as Cage lands after the second punch, make it count with a Shadow Kick.

Flame 'n Glory

1. One more time, start by moving Cage diagonally Toward his opponent, and then hit Button B to Hop Punch.

2. This time, follow up the second punch with the Green Flame.

3. Extinguish the Green Flame by jumping Toward Cage's foe and tapping Button A to Kick.

An Uppercut Above the Rest

1. When an opponent jumps in with an Air Kick, crouch and Block low.

2. As soon as the opponent hits Cage's block they'll bounce back a little. Immediately let fly with an Uppercut.

Out from Under

1. Let Cage connect with a Sweep (he has to be close to his attacker).

2. Follow immediately with an Uppercut.

3. Before Cage's foe lands, make 'em see stars with a Shadow Kick.

Out from Under, Part Deux

1. Do it to 'em one more time, except try to get Cage to land an extra hit in between moves. Cage doesn't need to be as close to his opponent as before. Start it off with a Sweep.

2. Then jump Toward and Kick.

3. When Cage lands, slip into the Shadow Kick.

Play Tips SNES

JOHNNY
CAGE

Against Sonya

Johnny's Split Punch doesn't work against Sonya Blade. Instead, try a Green Flame followed up with an Air Kick.

Against Scorpion

Cage's Shadow Kick doesn't reach across the entire screen, so it'll only work when he's close in to his foe. If Scorpion Blocks, try to immediately knock him over with a Sweep. If the Sweep misses, get ready to Block the Harpoon that's probably heading in Cage's direction.

Against Rayden

The Green Flame sizzles from afar. Use it repeatedly after nailing Rayden with an Uppercut. Psst...The Green Flame knocks out Rayden's Lightning.

Against Sub-Zero

Sub-Zero's Freeze can really put the chill on Cage's Green Flame, so less Green Flame is better against SZ. Instead, try to warm things up against old Frosty by coming in with Air Kicks and Punches. When all else fails, Sweep him off his feet.

Against Liu Kang

Liu gets pretty cocky, but a Green Flame followed by a Shadow Kick, then rounded off with a Sweep'll give him something to think about.

Against Kano

Keep Cage low and watch for Kano's deadly Knife. Try to sneak in close with a Shadow Kick and then crouch and deliver an Uppercut before Kano can react.

Cannonball

Kano gathers all his strength into one furious ball of fury as he spins at chest height and flies into an opponent. To execute his roll move, hold Button R and press Toward, Down, Away, Up and Toward (make a full circle on the pad).

Knife

It's apparent that Kano loves metal (just look at his head). He's also got a knife that he tosses at his attackers. To fling his blade, press and hold Button R and move Kano Away from his opponent, then press Toward.

Head Blow

Kano delivers a metal message when he slams his head into an opponent. To make his foe's head swim, move Kano in close to his attacker and press Button Y.

Throw

Kano doesn't like unexpected company. To throw attackers that invade his space, have Kano get up close and personal, then press Button B.

Finishing Move

It's instinctive to give your heart to some people, but Kano isn't one of them. Nonetheless, he'd love to steal someone's heart, and he can do it by pressing Away, Down, Toward, then Button B.

Have a Knife Day

1. Begin the action with two Hop Punches (push diagonally Toward and hit with the Punch button).

2. After landing from the second punch, drive home the point with the Knife.

Punch and Roll

1. Kano starts this one off with two consecutive Hop Punches.

2. After landing from the second Punch, flip into a Cannonball.

Killer Kombos SNES

Genghis Kano

1. Put Kano into the thick of things with either a Throw or a Hop Punch.

2. As he hits the ground, follow up with a Cannonball.

Kano Kuts Low

1. When an opponent comes in with an Air Kick, have Kano crouch and Block low.

2. The second they connect with the Block, have Kano peg 'em with an Uppercut.

Killer Kombos SNES

Knife to See You Again

1. When Kano's in close, trip up his attacker with a Sweep.

2. While they're off balance, hit 'em with an Uppercut.

3. For a final deadly surprise, start the motion for Kano's Knife before his attacker even hits the ground.

If Anyone Kan Do It, Kano Kan

1. One more time, when Kano's in close, start off with the Sweep.

2. Follow the Sweep with an Uppercut.

3. Before the opponent can recover, hit 'em with an Air Kick.

4. When you land after the Air Kick, whirl into a Cannonball.

Against Sonya

Kano's Cannonball wreaks havoc, but it's easy to Block. If the move is Blocked, try to jump over the foe and attack from the opposite side. Watch out for Sonya's Ring Toss.

Against Scorpion

Scorpion's gonna try to pierce Kano's hide with his Harpoon. Block, and then whip directly into a Cannonball for a quick and deadly counter attack.

Against Sub-Zero

Counter the ice-man's Freeze with a Block and then quickly hit him with a Cannonball. If Mr. Zero Blocks, jump in with an Air Kick.

Against Rayden

Don't bother with the Knife or the Cannonball against Rayden. Kano's best bet against Ray-man are the basics: Air Kicks followed by Sweeps.

Against Liu Kang

Speed kills and Liu Kang's is impressive and deadly. Block his Flying Kick, then immediately toss the Knife. Then, quickly go into a Cannonball.

Against Johnny Cage

Cage wants a piece of Kano for his trophy shelf. When Johnny tries his Shadow Kick, Block Low and tag him with a Sweep. Keep Kano a good distance from Johnny to avoid the long range of the Split Punch.

RAYDEN

RAYDEN

Lightning Throw

Fire some bolts with this Rayden specialty. Move the directional pad Away, Down, Toward, and then hit Button B.

Teleport

Now you see Rayden, now you don't. To make Rayden disappear from one side of his opponent, and reappear on the other, press Down, then Up on the control pad. This vanishing act is very effective for whacking an opponent with a surprise Uppercut.

Torpedo

It's a bird, it's a plane...it's Rayden! To launch this massive missile attack, move Away from his opponent two times, then move Toward.

Head Blow

Rayden passes out headaches like politicians pass out favors. To start handing out migraines, move Rayden in close and press Button Y.

Throw

Rayden sends his love, and then sends his attacker after it. Move Rayden in close to his foe, and press Button B.

Finishing Move

Watts up?! Rayden lights up the screen with some serious voltage that electrocutes his enemies into a pile of dust. When the screen reads "Finish Him," move Rayden close to his opponent, then press Toward, Away, Away, Away, and Button Y. This move requires fast button-pressing and correct timing.

Killer Kombos SNES

RAYDEN

Jumpy

1. To begin this combo, jump in with an Air Kick.

2. As soon as you land, let fly with a Torpedo.

3. Close the combo with the Lightning Throw.

Roll Playing Game

1. When Kano tries to nail Rayden with his Cannonball, Block.

2. As he bounces back, move in close and High Punch him.

3. Finish the combo off with a Torpedo.

Punch 'n Fly

1. Let fly with two High Punches.

2. After the second High Punch hits, Teleport and land a third punch, preferably an Uppercut.

Makes Ya Wanna Jump, Jump

1. Jump straight up and hit Button A to kick.

2. When you land, toss a Lightning Throw.

Hip Hop

1. When Rayden gets close to an opponent, he can attempt a series of Hop Punches. To do the hip hop, simultaneously press Button A to Punch and diagonally up Toward an opponent. Repeat the move over and over, even if your opponent blocks.

Some Kombos Come Cheap

1. Here's a standard combo that works every time. To begin, Sweep an opponent who's in too close.

2. Follow up with an Uppercut.

3. You can try to finish with another move, like the Lightning Throw or a Torpedo.

Quite a Challenge

1. This one takes some practice. To start off, come in with an Air Kick.

2. When the kick lands, move in for an Uppercut.

3. Before your opponent lands, soar into the Torpedo.

4. Finally, nail 'em with the Lightning Throw.

Play Tips SNES

RAYDEN

Against Liu Kang

Rayden's Lightning Throw is a great cross-screen move. Stun 'em with an electrifying Lightning Throw and then pile on the damage with a Torpedo.

Against Johnny Cage

Pound Johnny repeatedly with the Torpedo to weaken his defenses. When he tries to Shadow Kick, Teleport and nail him from behind.

Against Kano

Lightning Throws are a good way to pester Kano from a safe distance. If he looks like he's gonna Cannonball though, quickly Teleport to safety.

Against Scorpion

Rayden loves to beam across the screen and Teleporting can confuse the heck out of even the toughest attacker. Teleport and come out gunnin' with an Uppercut to stun 'em.

Against Sub-Zero

Watch out for Sub-Zero's Freeze. It can put a deadly chill on even the coolest Torpedo and it knocks down the Lightning Throw. The best counter is a Flying Kick followed by a Sweep. For the grand finale, Teleport and deliver a mind-numbing Uppercut.

Against Sonya

Rayden's Torpedo is a great off-the-mark move. Human opponents easily Block it, but when it's pulled just as the game starts, it usually catches the CPU off-guard.

LIU KANG

1. If Kang is cornered, have him turn and face the wall, and then execute the Flying Kick. He'll land in front of his opponent.

2. Come in with an Air Kick.

3. Finish this one off with a Flying Kick.

Sweep 'Em Out

1. When Kang's in close to an opponent, trip them up with a Sweep

2. Afterwards, catch 'em under the chin with an Uppercut.

3. To end this affair, singe the attacker with a Fireball.

Fire and Away

1. If Kang's opponent is across the screen, toss a Fireball.

2. Then, while they're off balance, nail 'em with a Flying Kick

Against Johnny Cage

Fireball this Cage chump until he gives up. If he Blocks any of the Fireballs, leap in with a Flying Kick.

Against Kano

Kano can Block most aerial and ground attacks. To make him hurt, move in close and tag him with Sweeps and Throws.

Against Sonya

Liu Kang's Fireballs singe from afar. Don't bother to fight Sonya in close - just toss Fireballs from across the screen. Follow up a Fireball with a Flying Kick.

Against Rayden

Immediately blast into this match with a Flying Kick. If it works, try it again. If it's Blocked, Sweep Rayden. If Rayden does his Torpedo dodge out of danger with a Flying Kick.

Against Scorpion

Trick Scorpion into trying to Block Kang's Flying Kick. This leaves him open to a Sweep. When Scorpion's knocked off his feet, try to keep him there by following up with a Throw.

Against Sub-Zero

The Flying Punch is one of the best moves in Kang's arsenal. If Sub-Zero and others are Blocking Kang's other aerial attacks, try to come in with the Flying Punch. Just look out for the Freeze.

Scorpion throws a whip (ouch!) with a dagger attached (ouch, ouch!), which lands in the throat of an opponent and drags them across the screen (ouch, ouch, ouch!). To fling Scorpion's spear, push Away from an opponent two times and then press Button B to give 'em the shaft.

Teleport

Scorpion can disappear from one side of the screen and reappear with a punch on the other side. Most opponents won't be able to block this punch. To Teleport Scorpion and slap his enemies around, press Down, Away, and finally Button Y.

Head Blow

A backhanded fist greets any attacker who gets too close to Scorpion. To execute this sting, move Scorpion in close to an opponent and hit Button Y.

Throw

Scorpion would have made a good bouncer. To toss the competition, have Scorpion stand close and press Button B.

Finishing Move

Scorpion likes to roast some weenies, and his attackers are just the weenies he's looking for. To light this scorcher of a Finishing Move, place Scorpion one sprite away from his opponent and press Button R, and Up two times.

SCORPION

Thar They Blow!

1. While Scorpion's reeling from a hit is a great time to charge for the Harpoon, then take a stab at it.

Gettin' It Good

1. Scorpion takes it away with two Punches.

2. Follow the Punches with two Hop Kicks (jump diagonally Toward and press Kick).

4. Finish it off with an Uppercut.

Fake Out

1. When Sonya zaps the Square Wave Flight, tap Toward two times as you charge up for the Harpoon.

2. Release the Harpoon as she lands on the other side of Scorpion.

3. Finish with a Throw or Uppercut.

Fly and Die

1. Have Scorpion block incoming moves like Rayden's Flying Thunderbolt.

2. Then, as Scorpion bounces away, Teleport.

3. After he lands from the Teleport, toss the Harpoon.

4. Conclude this piercing combo with an Uppercut.

You Liu's

1. When foes like Liu Kang leap in with kicks, press Down to duck.

2. Then, throw a Harpoon.

3. Next, trip 'em up with a Sweep.

4. Close this kombo with an Uppercut.

Scorpion Stings

1. Put Scorpion into gear with two High Punches.

2. Follow immediately on the heels of the second Punch with a Sweep.

3. As Scorpion's opponent climbs to their feet, stun them with an Uppercut.

4. Follow with an Air Kick. Scorpion's foe will try to block this final move, but go for it anyway.

Play Tips SNES

SCORPION

Against Sonya

Sonya is as vulnerable to the Harpoon as anyone else, but she will Block the move in later rounds, especially in Endurance Rounds. When she Blocks, be ready to Block an incoming Air Kick.

Against Sub-Zero

Throw the Harpoon as soon as the match starts. While Sub-Zero is dizzy, Throw him. Before he lands on the other side of the screen, Teleport and then hit him again. Excellent.

Against Rayden

Whenever Rayden goes into his Torpedo move, Teleport. Teleport again when he lands. When in close, go for the Throw.

Against Liu Kang

To make sure Kang gets the point, toss him a Harpoon whenever you're across the screen from him. If he tries to Block, leap in with an Air Kick.

Against Johnny Cage

When Johnny goes into the Shadow Kick, puncture him with a Harpoon. If the timing's right, you'll catch him in mid-kick. Ouch!

Against Kano

If Kano fights dirty with his Knife, jump over it and come in with an Air Kick. When you land, Teleport and slam him hard.

Sweep Mystery of Life

1. When Mr. Zero's in close to an opponent, try a Sweep.

2. Follow it up quickly with an Uppercut.

3. Before the opponent lands, chill out with the Freeze.

4. End this crusher with an Uppercut.

Against Sonya

Sonya's usually on the lookout for Sub-Zero's cold shoulder. Toss the Freeze and, if she Blocks, Slide right into her.

Against Scorpion

Throw a Freeze and follow it up with an Air Kick. If Scorpion manages to Block the Freeze, the kick'll get him. Now, Freeze him again before he gets up and then hit him any which way you like.

Against Rayden

Boy, does Rayden hate Sub-Zero. The Freeze stops the Torpedo in mid-air! It's also effective against the Lightning Throw. Hey, Sub-Zero can even Freeze Rayden in mid-Teleport.

Against Liu Kang

Put Kang in the deep Freeze, and follow up with an Air Punch. If Liu manages to Block the Freeze and the Punch, just take him off his feet with a Slide. The second he hits the ground, go for the Freeze again.

Against Johnny Cage

This one's easy. Counter Cage's Shadow Kick with a Slide. Then, throw a Freeze followed by an Uppercut.

SONYA BLADE

Against Scorpion

Sonya's Air Kick is a pain in the stinger for Scorpion. She also likes to Block his Harpoon, and then toss him some Rings.

Against Sub-Zero

Get Sonya up close and personal with Sub-Zero, and then wail away with Punches. If SZ tries to sneak away, shear him with the Scissor Grab.

Against Rayden

Use the Ring Toss as soon as the match begins. Keep relentlessly tossing Rings at Rayden until he Blocks. Then, leap in with an Air Kick.

Against Liu Kang

Counter Kang's Flying Kick with the Square Wave Flight. Try to move in close for a Throw, then go for the Scissor Grab.

Against Johnny Cage

Stop Johnny's Shadow Kick in mid-air with the Ring Toss. Try to move Sonya in close to cut Cage with the Scissor Grab.

Against Kano

Sonya's got to keep a sharp eye out for Kano's Knife. Try to counter his moves with Air Kicks. If he tries to pull a Cannonball, Block, and then clip him with the Scissor Grab.

GAME GEAR

The Code of Honor

The word "code" has many different definitions. The Shaolin Martial Arts tournament is governed by a system of rules of conduct...an ethical code.

The combatants respect each other as warriors no matter what degree of hatred they have for one another...a code of honor. Another type of code could be defined as an arbitrary system of symbols or letters for transmitting messages... a secret code. Mortal Kombat adheres to many codes, but does it contain one? (Don't blame us...that's really what it says.)

The Kode

When the final of the three "code of honor" screens appears (the one that talks about secret codes) press Buttons 2, 1, 2, Down, and Up. If you've done the trick correctly, the words, "Now entering Kombat." appear on-screen.

Sub-Zero's Fatality Move

Some people find this move upsetting. Maybe they should have a little more backbone. To check it out, get in close and hit Toward, Down, Toward, and Button 1.

To try this explosively-electric final move, get in close to Rayden's attacker and tap Toward, Away, Away, Away, and Button 1.

Johnny Cage's Fatality Move

Get ready to knock his block off. Press Toward, Toward, Toward, and Button 1 to do this very final move.

Stages & Bonus Rounds

Game Gear

You won't feel scenically shortchanged with all the action included in this im-Mortal portable. Even though it only takes place in two background scenarios, you won't need more when you get all this.

Cage vs. Goro

Sweeps are useless against Goro. Go for his head instead.

Cage's Split Punch works against Goro, but it's likely to do more harm than good. It leaves Cage in a vulnerable position and wide open to attack. If your heart is set on using it (assuming your heart is still intact), try it as a finishing blow to end the match.

Rock Goro's world with a kick, then follow up with some devastating Air Punches.

To destroy Goro with flair, bar-b-que him with some Green Flame. Don't fight fire with fire, though. When Cage's Green Flame goes head-to-head with Goro's Flame, Cage loses everytime.

Goro's weapons of choice.

Avoid 'em all!

Kang vs. Goro

Fireballs followed up by a Flying Kick get the job done fast. For a well-balanced attack, add some basic moves like Air and Jumping Kicks and Punches.

Kano vs. Goro

Jumping Punches and Jumping Kicks work well against Goro.

Multiple Cannonballs followed up with High Kicks bring Goro's life bar down a notch.

Kano can toss Knives at Goro to keep him back, but he executes them too slowly. Before Kano knows it, Goro is performing a Chest Thump on him.

Head butts are big trouble against Goro. The big guy'll put the hurt on before Kano even has time to think about the mistake he just made.

Scorpion vs. Goro

Use this combo to put Goro seven and a half feet under. To start, launch a Harpoon at Goro's jugular. Then, follow it up with a spirit-lifting Uppercut. Now, to get out of town, Teleport. Once Scorp lands in safe territory, start all over again. Scorpion can usually get away with two Harpoons in a row, but after that he's toast.

Play Tips Goro

G
O
R
O

Rayden vs. Goro

Use a kick every now and then to keep Goro distanced, especially when old four-arms jumps toward his attacker.

The lethal combo of a Torpedo followed up with a Lightning Throw, works well against Goro.

If Rayden is about to get Goro-cized, Teleport.

Once again, class...all aerial Punches and Kicks work well against Goro...but like all good things, only in moderation.

Sonya vs. Goro

Sonya's Ring Toss is effective against Goro, but once he starts firing back, change the plan of attack. She'll lose if she starts trading blows.

The Scissor Grab is a no-no against Goro. The only thing it'll get Sonya, is a knuckle pizza - hand delivered!

Try to mix up Sonya's moves as much as possible. As with any fighter, Goro will recognize if she uses the same move too much, and he'll immediately counter.

Sub-Zero vs. Goro

Tried and true will make Goro black and blue. An effective combo for Sub-Zero is to Freeze Goro, then follow up with an Uppercut. End it with a Slide.

Here's a little cheese for Goro's next meal. Just Freeze and Uppercut, then Freeze and Uppercut. Repeat until desired effect is achieved.

Aerial attacks should definitely be part of Sub-Zero's Goro blue prints.

Play Tips Shang Tsung

SHANG TSUNG

Trading blows with Shang Tsung will do him some damage, but he'll usually do more damage than is done to him. It's safer to wait until he transforms into another character.

Sweeps are useless against Shang Tsung.

Shang Tsung's Fireball wipes out a good chunk of any Kombarant's life bar. He'll toss four Fireballs in a row at most, so count and be sure to duck!

Don't use Sonya's Scissor Grab against Shang Tsung. Once he transforms into any of the original seven characters, though, the Scissor Grab works just fine.

Sub-Zero's Slide is also useless against Shang Tsung. Wait until he changes into another fighter, then Slide until your feet hurt (which won't be too long).

Shang Tsung's got nine lives, but no heart. He can't use each fighter's special techniques until he transforms into that character.

Mortal Moves are effective weapons if you want to get this fight over with in a hurry.

If you see that you're getting Shangslammed, mix up your Mortal Moves with more conservative Basic Attacks.

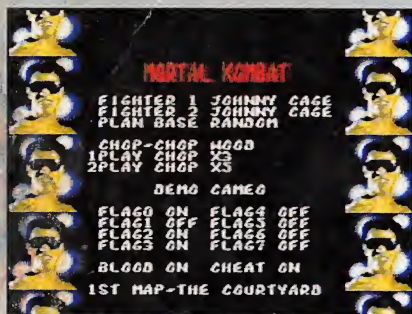

Try not to trade blows with Shang Tsung until he transforms into another fighter. Then, go after him using the Killer Kombos, PlayTips, and other fighting strategies you'd use against that character in the regular tournament. When Tsung changes into Goro, stay back and fight cautiously.

Plan Base - Random, One, Two, Three, or Four: This probably accesses the computer's basic strategies for fighting human opponents.

Chop-Chop: Choose from the five different bonus round substances (wood, stone, steel, ruby, and diamond) for the "Test Your Might" demo.

1Play and 2Play Chop: Determines how often the player is given a chance to "Test Your Might." XO is not at all, X1 is after every match, X2 is after every two matches, etc.

Demo: This option enables you to view the Cameo, Biographies (ending stories), and Battle Play for the current Fighter 1. Chop-Chop enables you to play the "Test Your Might" bonus round with the currently selected fighters. Choosing Medal will show you the pre-match screen for a two-player game, using the arena and players currently selected. Press Button A, B, or C to begin the chosen demo.

FLAG0: This option cripples Player 2. It only takes one attack by Player 1 to defeat Player 2. The exception is Goro, who won't be crippled in the first fight, but will be in the second and third fights.

FLAG1: Cripples Player 1 in the same manner.

FLAG3: Activate this flag, and then choose the Pit as your first map background. The initials BYC and a bouncing face will scroll across the Pit's moon (this activates the Reptile mode as well). Choose the Pit as your first fight, or the option won't work. Wonder who it is?

FLAG4: Activate this flag and you'll receive Reptile clue messages before every match. Your opponent will be crippled in the second and third rounds only.

FLAG5: This flag gives you unlimited continues.

FLAG6: This flag makes the computer characters always execute their Finishing Moves.

FLAG7: Activate this flag and you'll only fight in the Courtyard against unusually tough opponents.

FLAG2: Go straight to Reptile! This activates the various characters that scroll across the moon above the Pit - including Peter Pan, Wendy and Michael, a Witch, Santa and his Sleigh, a Rocket Ship, and a Blimp. If the player activates this option and defeats their opponent in the Pit with a Double Flawless and a Finishing Move, Reptile will appear ready to fight!

BLOOD: This turns the blood on or off!

CHEAT: This turns the Cheat Mode on or off.

1ST MAP: This option enables you to choose the forum for your first fight. If you choose the Pit, you'll automatically have the opportunity to fight Reptile.
